DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on August 15, 2007 has been fully considered and entered.

Reasons for Allowance

2. Claims 1-7 and 10-35 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest all the limitations recited in claim 1. Specifically, the prior art of record fails to disclose a tunable optical add-drop multiplexer (OADM) based on an SOI (silicon-on-insulator) wafer, comprising at least a grating formed on the multimode interference region; and at least two electrodes formed on two sides of the multimode interference region and having carriers induced thereinto, wherein the grating is structurally changed through one of arranging identical grating periods and arranging different grating periods, so as to control a wavelength response, thereby a variation of an optical waveguide in the grating is controlled through controlling the carriers induced into the electrodes so as to further control different propagation of wavelength signals in combination with the other limitations of claim 1.

Claims 2-7 and 10-20 depend from claim 1.

The prior art of record also fails to disclose or reasonably suggest all the limitations recited in claim 21. Specifically, the prior art of record fails to disclose a method for manufacturing a wavelength tunable optical add-drop multiplexer based on a semiconductor wafer, comprising steps of forming an insulating layer and a conducting layer on the substrate; defining a multimode interference region and plural input/output waveguides on the conducting layer; defining a periodic grating structure on the multimode interference region; and forming two electrodes respectively on the N type region and the P type region in combination with the other limitations of claim 21.

Claims 22-35 depend from claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
